| 27 – 31 Jul              | <b>Final Term Exams — Start</b><br><i>No society events from this point</i>                                                                                                                                  | —                                  | —                         | —                              |
| <b>AUGUST</b>            |                                                                                                                                                                                                              |                                    |                           |                                |
| 01 – 15 Aug              | <b>Final Term Exams — Continued</b><br><i>Campus in exam mode</i>                                                                                                                                            | —                                  | —                         | —                              |

### Notes & Guidelines

1. All society events are scheduled within the 10:00 AM – 2:00 PM window.
2. Industry Visit exact days are subject to host company availability; confirmed dates will be communicated one week in advance.
3. The AI/ML Competition and Project Exhibition are the two flagship events of the semester. Participation certificates will be awarded.
4. The Webinar for MS Students is fully online and held on a Sunday (date TBD — before or after Mid Term exams). No campus presence required.
5. The Project Exhibition (Jul 07–09) is scheduled exactly 2 weeks before Final Term Lab exams begin (Jul 27), giving students sufficient preparation time for papers
